Re: Delta Vision Implementation Report

Dear Governor Schwarzenegger,

On behalf of Calleguas Municipal Water District (Calleguas), I want to express support for the Delta Vision Committee's Implementation Report. Calleguas is the northern-most member agency of the Metropolitan Water District of Southern California, and a wholesale water district which relies 100% on the State Water Project to supply over 600,000 people. The Implementation Report provides the correct and necessary approach towards achieving lasting solutions for habitat restoration, water conservation, water rights enforcement and water system improvements in the Delta.

Calleguas commends you and other Delta Vision Blue Ribbon Task Force Committee members for your tremendous time and commitment dedicated to this effort.

We also support your call for a 20 percent reduction in per-capita water use in California by the year 2020. The completion of the Bay/Delta Conservation Plan by the end of 2010 is essential because it will serve as the framework for pairing the necessary ecosystem improvements with changes to the water conveyance system.

We look forward to working together on the comprehensive solution that the Delta and California so desperately need.

Very truly yours,
