To Whom it May Conceren;

Everything that is discussed in this document, is not exactly explained. You dont say “ here this is what's going to happen if we dont do this,” and, “this is how and what we are going to do about it”.

I need to you to explain:

This is what we need to do,
This is how we are going to do it,
And if we dont, This is the future of the Delta.

I need to know the PROS and CONS of the situation on both ends, (meaning, rebuildind the Delta, and not rebuilding the Delta.)

I want to know the Game Plan:

Where are you going to flood, and how is it going to affect California. Where are you going to place the wildlife, and how are you possibly going to save them ALL?

What about the Mitigation?

Is there any other way to do this without destroying the delta that we have?

Feel free to call me and explain it to me the best that you can. I couldnt make sense of it.
Thak you
